# KUDO's Interface | Interpreter

Meet the KUDO Interpreter Interface. The console includes the exact same functionalities you would find in a conventional interpreters' console hardware.

1 Meeting Name
Indicates the name of the session being interpreted.

2 Dashboard Access
Go to the list of events with an overview of the past, current and coming sessions.

3 Events Dropdown
Allows quick access to your list of Events.

4 Profile
Click over your name if you want to view or edit your profile or if you want to log out of the session.

5 Configure Outgoing Channel
Select the language(s) you may need to use.

6 Outgoing Channel Selection
Press a button to select the language you will be speaking. Configuring doesn't automatically select a language.

7 Configure Incoming Channel
Select auxiliary languages in case you need to take relay.

8 Incoming Channel Selection
Press a button to quit the Floor and select a relay incoming language.

9 Video Input Selection Tabs
Alternate Live Video or Presentation to display in the video window.

10 View Layout Toggles
Switch between gallery or single view (left btn). Expand the video window to full screen (right btn).

11 Video Window
Embedded video or presentation window.

12 Participants' Thumbnails
Visual input of other active speakers.

13 Microphone On/Off Button
Activate your microphone to start interpreting. A RED button indicates it is LIVE (hot). A GREEN button means it is off.

14 Channel Busy Button
This button will light up (blue) if the channel you're trying to enable is occupied.

15 Mute (Cough) Button
Mute/unmte. When active, the mic button (13) will display as crossed.

16 Incoming Volume Control
Use the slider and loudspeaker icon to control, mute the sound level you hear, and visualize the level of incoming sound.

17 Floor Incoming Selector
Default incoming channel. It brings you the audio of everything that is said on the Floor

18 Boothmate Handover
Control and messages for the Handover feature.

19 Messaging Tab
Select the chat channels to communicate with fellow interpreters and operator.

20 Polls Tab
Access to poll results.

21 Documents Tab
Download available documents. A second screen is recommended to display them.

22 Request List Tab
Access to the lineup of speakers who have requested the Floor.

23 Shortcut List
Display a list of available keyboard shortcuts.

24 Interface and Media Settings
Select the interface language, and mic / speaker / camera to use on the meeting.
