

REVIEW OF GERMANY'S POSITION PAPER

THE EUROPEAN UNION'S FUTURE
CRISIS MANAGEMENT

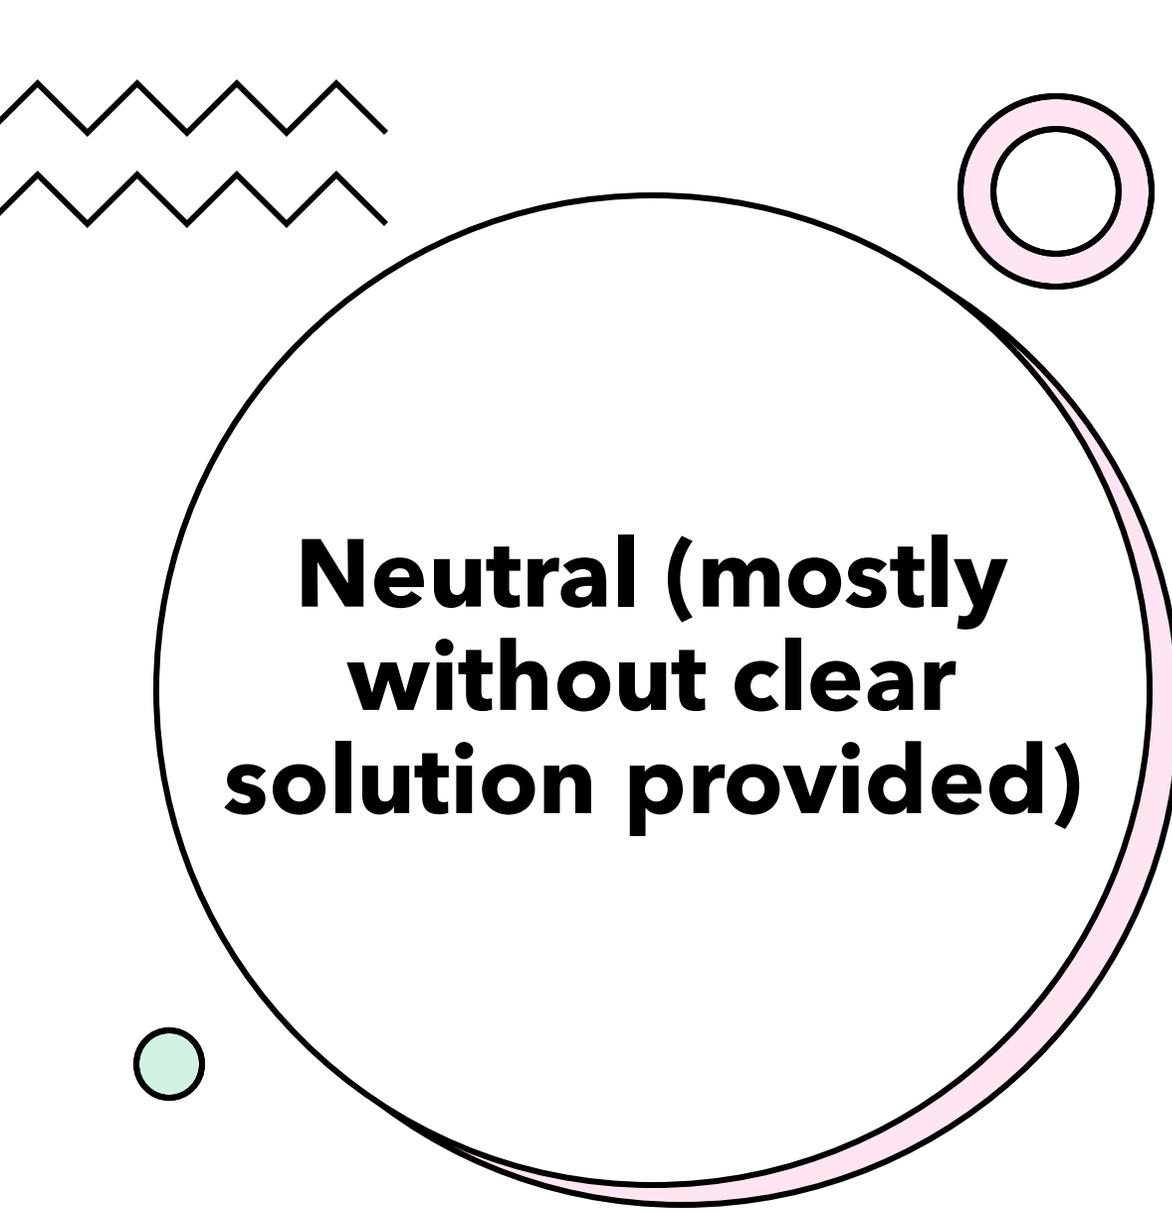

Strong points

- **Support of EU4Health**
 - **Carrying on option**
 - **The EU Recovery plan**
 - **Introduction of Covid passports**
 - **Contact tracing**
 - **EU wide research data sharing platform**
- 

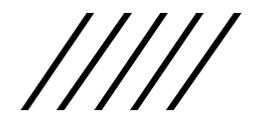

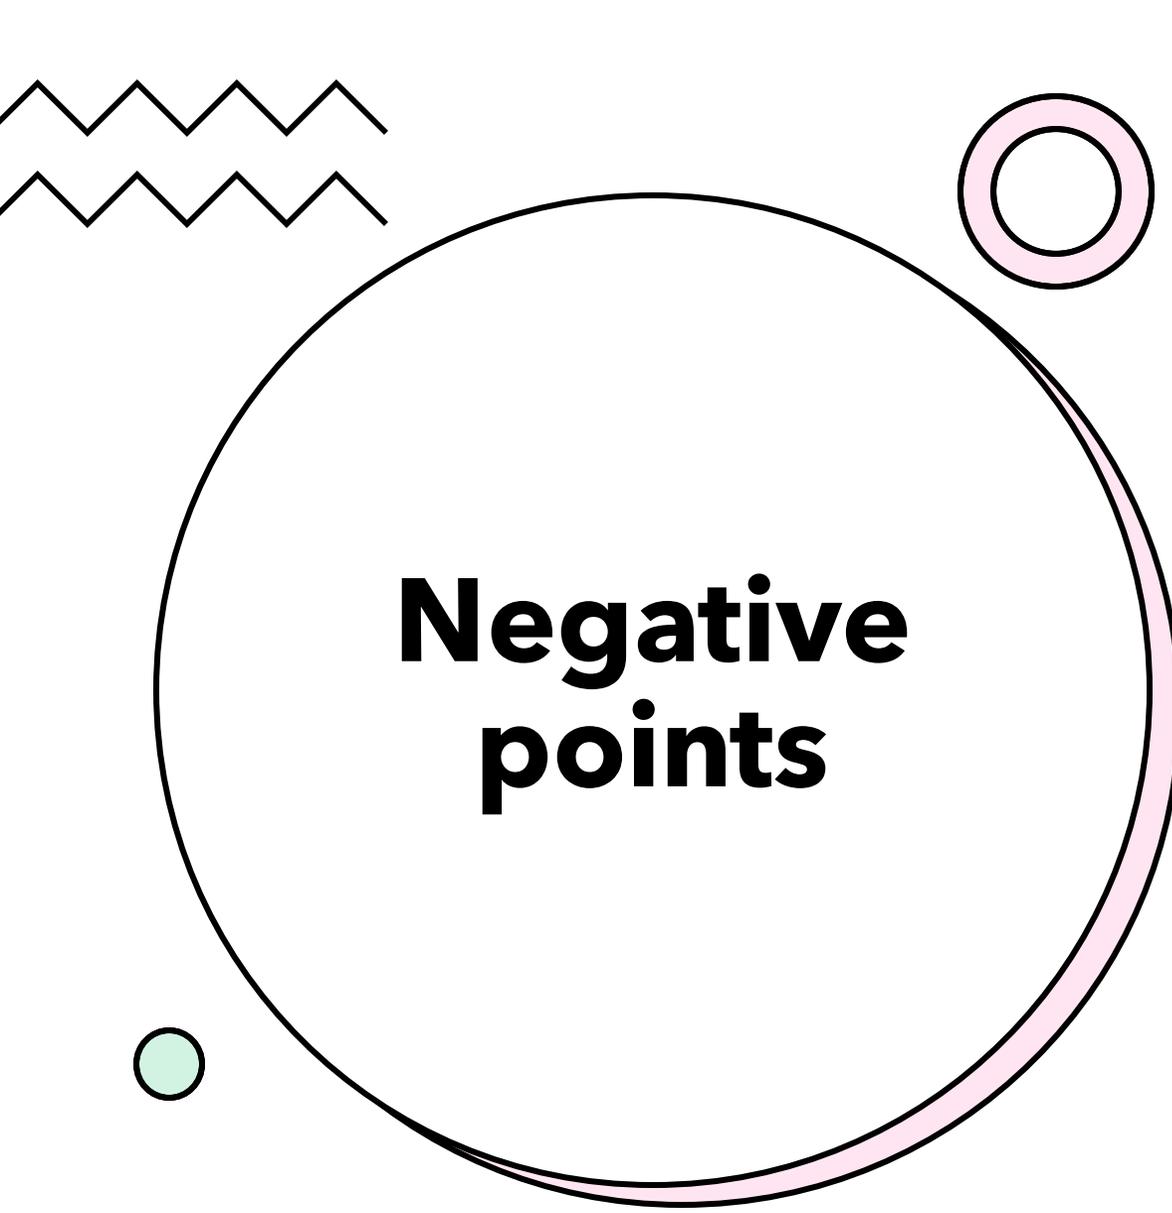

- **The EU can generate better conditions for loans, stimuluses, grants. Sharing of data for future research is much better when done together.**
- **Take a look at previous crisis responses (for example financial crisis)**
- **Europeans were generally satisfied with how EU has handled Covid during the summer**
- **With more collaboration and pooling of resources more money can be handed out in terms of grants and stimulus**
- **Next Generation EU is 750 billion temporary recovery instrument to help repair the immediate economic and social damage brought about by the coronavirus pandemic**
- **The EU can borrow on the markets at more favourable rates than many Member States and redistribute the amounts**

**Neutral (mostly
without clear
solution provided)**

- **Learn from the past**
 - **Inclusion of the EU citizens
- the question is how?**
 - **Solution on scientific
research**
- 

Negative points

- **"Together we will be robust and more adapt" - how?**
 - **Sometimes too naive and without clear solution**
 - **Many times stated that they are pro-European, but there is nothing to truly take out of it**
-
