ORCHESTRAL MUSIC

19th century:

Orchestral music can be considered in
four main categories:

- The *Symphony*
- The *Symphonic Poem*
- The *Concert Overture*
- The *Concerto*

SYMPHONY as a genre

- Word „symphony“: from Greek:
= „harmony“, „instrumental music“ →
overtures, interludes...

- Largely a German preoccupation – it is the contribution of German and Austrian composers that form the mainstream of symphonic literature

Schubert, Mendelssohn, Schumann, Brahms, Bruckner, Mahler

Their debt to Beethoven

SYMPHONY as a form

- Detailed explorations of ground that Beethoven had already uncovered:
 - **Thematic unity**
musical ideas derived from 1 or 2 main musical germs (ex.: Beethoven's *Fifth*)
 - **Cyclic unity**
experiments in binding together various movements
 - Harking back to the important themes
 - Continual reference to 1 basic *motto theme*

L. V. BEETHOVEN

- After *Eroica*: a new epoch in the development of the symphony
- Form → *thematic unity*
- Various conceptions:

Eroica x *Fifth* x *Sixth* x *Ninth*

→

Various impulses for other composers

Eroica → monumentality

Fifth → idea + thematic unity

Sixth → musical description = program

Ninth → choral additions

New forms:

**THE PROGRAM
SYMPHONY**

„PROGRAM“ MUSIC

- Non-musical content – more and more popular
- **2 ways:** the program is
 - Explicit (a story written by the composer)
 - Merely implied (felt by listeners to be there – music is so intense and personal)
- **The Program Symphony:**
 - Looser approach to its form
 - Systems for ensuring musical coherence (ex. *Idée fixe* = the obsessional idea that crops up during each movement)
 - *Hector Berlioz, Franz Liszt*

Hector BERLIOZ (1803 – 1869)

- Paris (the only composer of orchestral music – tradition interrupted by the FR)
- First program music = the end of conventions = intimate confession
- *Symphonie Fantastique*, op. 14 (1829)
 - „An Episode in the Life of an Artist“
 - Plot: his personal experience: love an actress from England: Harriet Smithson („Juliet“ / „Ophelia“, Paris 1827)
 - „*idée fixe*“ (used already in his early symphonies)

Symphonie Fantastique

H. Berlioz:

CONCERT OUVERTURE

OVERTURE

- 19th century: frequently used
- Identical in structure with the operatic overture
- Intended solely for the concert platform
- More often than not – intended as **descriptive pieces** (thus common ground with the symphonic poem)
- Idea / Plot: **wider** than by operatic overture (tours, pictures, ideas...)
- Beginning of 19th century: B.: *Coriolan, Egmont*
- Mendelssohn, Schubert, Berlioz, Wagner...

F. MENDELSSOHN-BARTHOLDY
