Council voting weights after Brexit

Consensual decisions despite QMV!!!

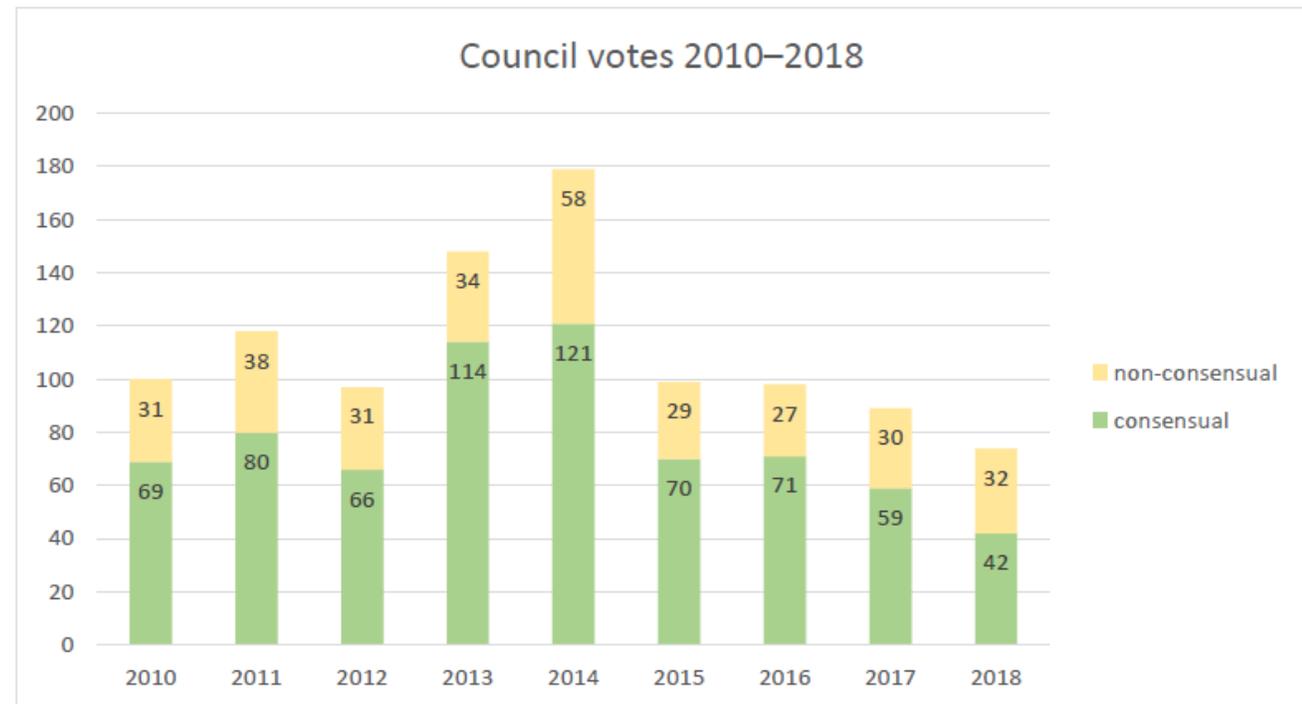

Figure 6: Consensual and non-consensual adoption of proposals in the Council 2010- (Nov) 2018; the numbers are absolute numbers of decisions, non-consensual comprising both votes against and abstentions, based on data on Council website¹⁶.

European Council ...the EU “summit”

- ▶ Created informally in the 1970s to **provide leadership** to the Communities
- ▶ Composed of **Heads of State and Government** + HR for Union Foreign Affairs and Security = an intergovernmental body
- ▶ **Permanent** president **Charles Michel**
 - chairs meetings to maintain **continuity** (instead of rotating Council presidency)
 - Cooperates with other EU institutions and the public
 - Facilitates consensus and coordination among members

LAST SUMMIT: February 1, 2024

European Parliament

- ▶ 705 members
- ▶ Directly elected since 1979 **represents the EU citizens** – supranational institution
(akin to a House of Representatives)
- ▶ Together with the **Council of EU**, it is **EU's second legislative body**
 - legislating either in the **ordinary legislative procedure (co-decision)** mode or
 - special legislative procedure: consultation (opinion), consent, assent
- ▶ **Approves/dismisses** the European Commission as a whole (requires 2/3 majority)

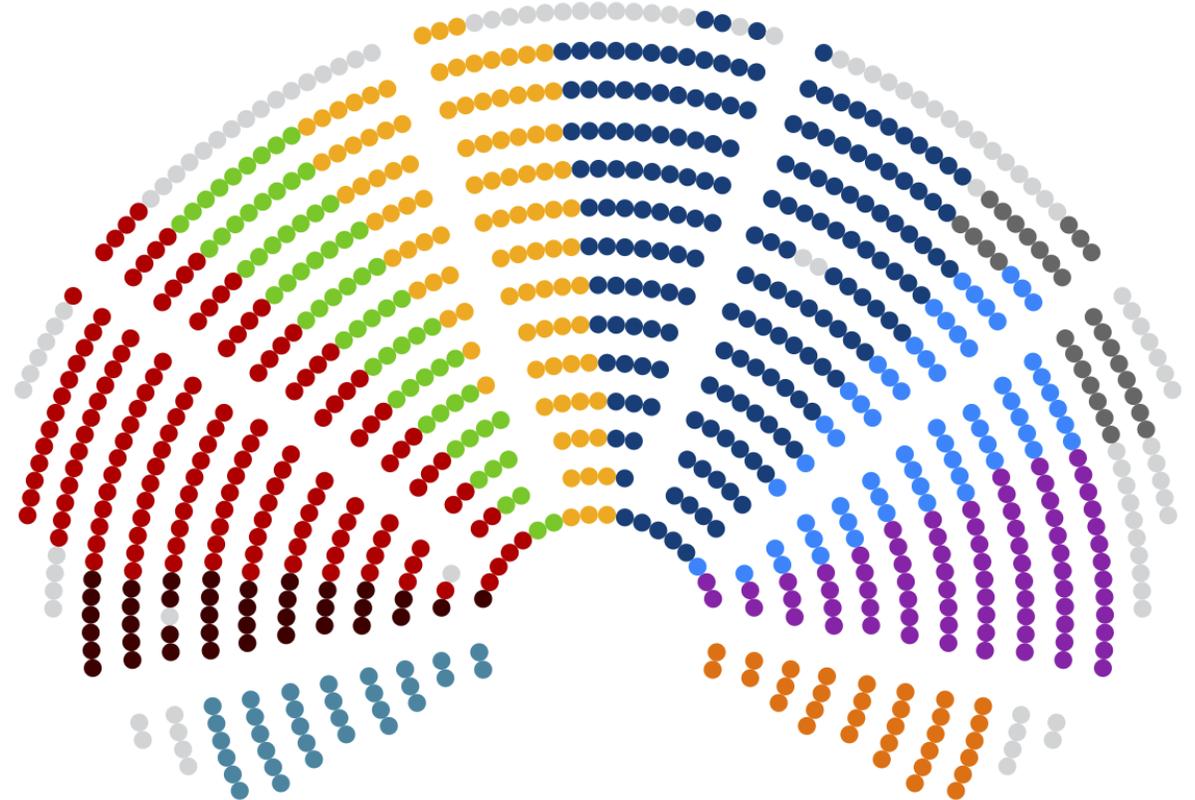

European Parliament

► Strasbourg seating arrangements

- All seats
- EPP
- S&D
- Renew
- ID
- Greens/EFA
- ECR
- The Left
- NI
- Council of the European Union
- European Commission

European Parliament

- ▶ EP president Roberta Metsola
- ▶ 7 main trans-national political groups
- ▶ +/- 20 committees (preparing EP opinions on legislation)
(a good place to lobby too)

Walking on “egg shells”

- ▶ EP needs to be constructive with its amendments in a delicate balance-of-power with the Council and the European Commission
- ▶ Find consensus among the big 3-4 political groups ~ simple majority
- ▶ MEPs at times find themselves torn between EP party allegiance and domestic political pressures

European Court of Justice

- ▶ Highest **legal authority in European Union law** (legal supremacy)
 - **Interprets** EU law --> **EU case law** (example: “direct effect” or “mutual recognition”)
 - Ensures compliance with EU law --> **infringement proceedings** usually raised by the Commission against a MS or a business
 - MS exceptionally refer a case to ECJ for a decision
 - An arbiter of inter-institutional squabbles
-
- ▶ Seat in Luxembourg

Types of EU Legislative acts

“secondary legislation”

Binding:

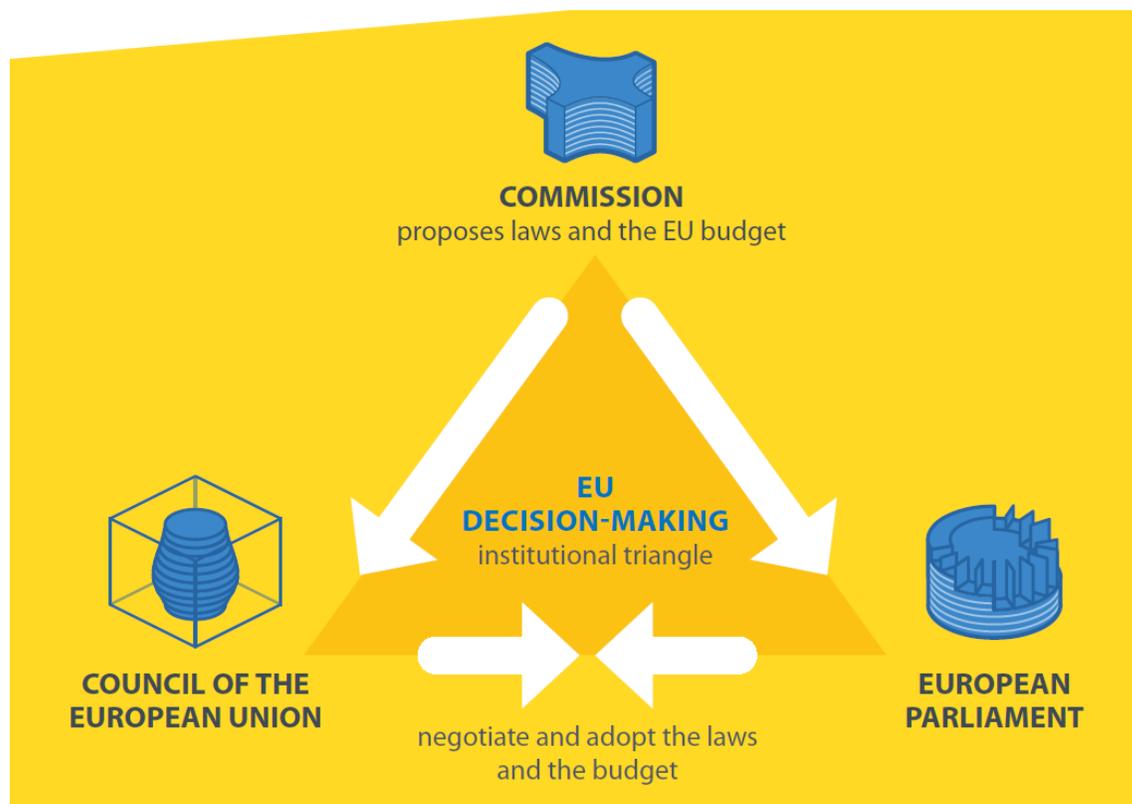

- ▶ **Regulations**: strongest legislation, directly enforceable, generally applicable; overrides domestic legislation
- ▶ **Directives**: need to be ‘*transposed*’ into national legislation (see art. 3)
- ▶ **Decisions**: directly binding upon those to whom they are addressed (sanctions)

Non-Binding:

- ▶ **Opinions**: relevant in intergovernmental policies (accession)
- ▶ **Recommendations**: achieve a goal without mandatory policy framework

Policy-Making in the European Union

in exclusive and shared competence

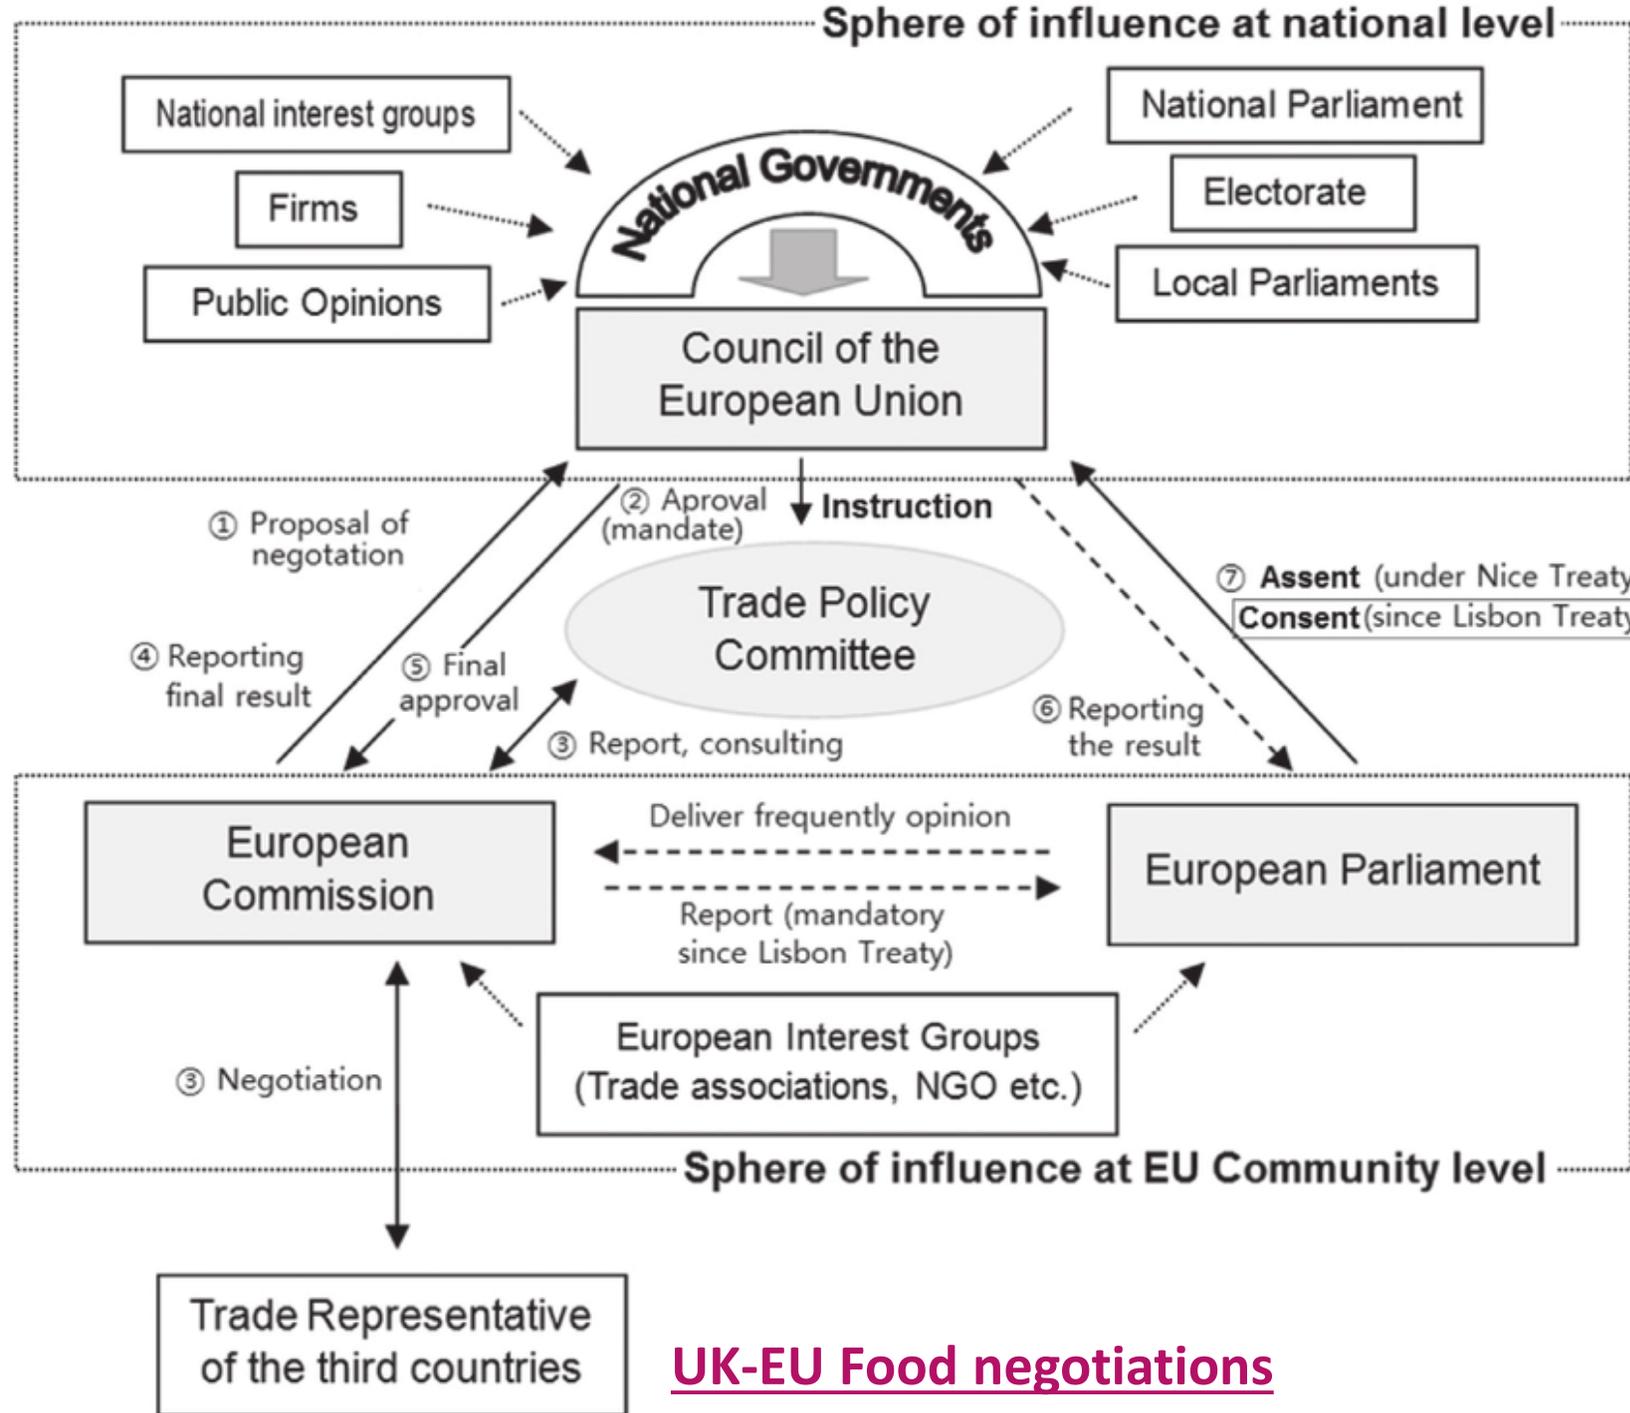

SIMPLIFIED:

1. Direction / goal set by **European Council**
2. **European Commission** proposes a legal draft (a regulation or a directive)
3. **European Parliament** (citizens) and **the Council** (states) read/amend, vote, adopt = it becomes European law
4. **Member states** implement
5. **Commission** oversees implementation
6. In case of problem --> **European Court of Justice**

EXAMPLE: External Trade

- ▶ Lobbyists and organized interests on national and European levels

UK-EU Food negotiations

Policy-Making in the EU

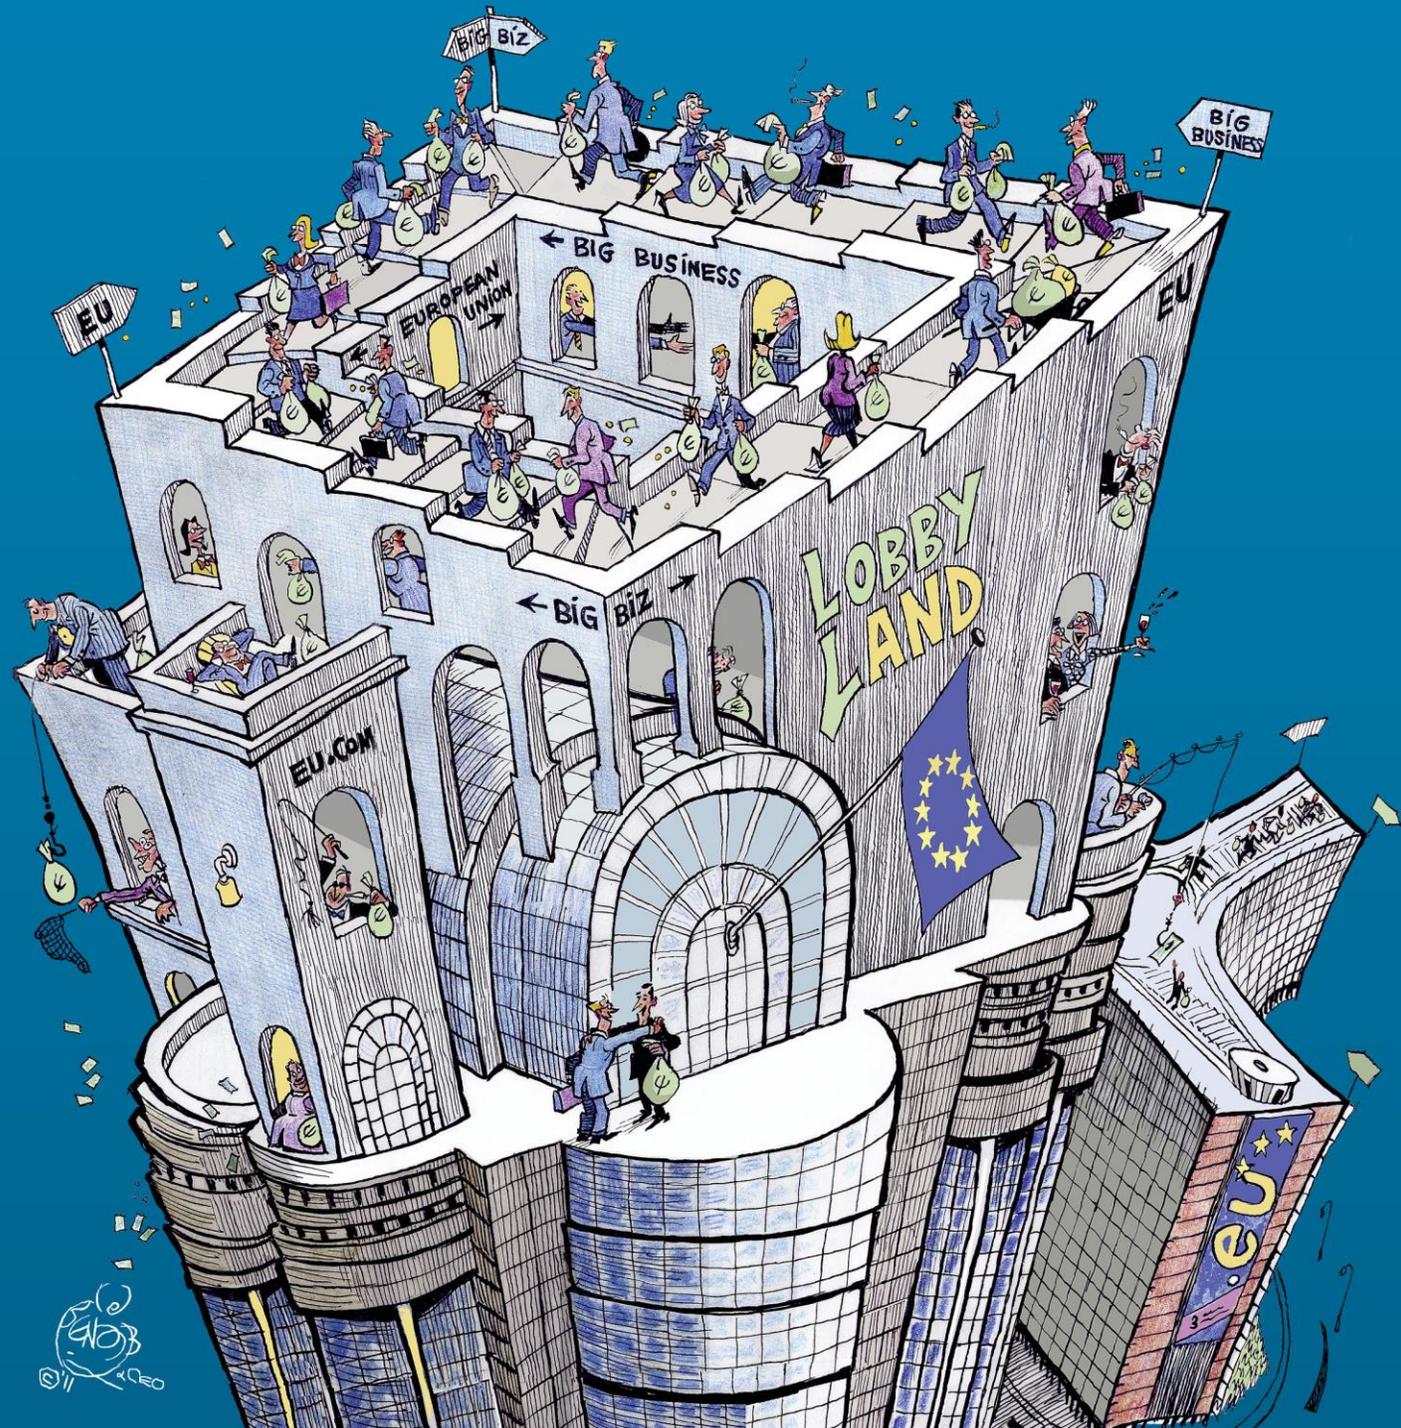

- ▶ Click [link](#) to follow FULL **ordinary legislative procedure** (no point in transcribing it here...)
- ▶ Plus [lobbyists](#), think-tanks, NGOs, businesses, transnational professional organizations (farmers, carmakers), regions, national interests
- ▶ Institutions' internal structures (EP committees, Council working groups, Commission directorates)
- ▶ Member states' "sniping" at principles of *subsidiarity* and *proportionality*
- ▶ On-going inter-institutional "following"
- ▶ Continuous inter-institutional cooperation (informal and formal)
- ▶ Despite strong rhetoric on occasion ...dogged pursuit of compromise

Interests

- Interests or information?
- Murky swamp or “business as usual”?
- Complicated network of influences
- Democratic deficit?

LENGTH of legislative process

- Takes 12-36 months
- EP “legislative train”

Transparency

▶ European Ombudsman

- Independent body to hold EU institutions accountable
- Deals with maladministration complaints

▶ European Court of Auditors

- Transparency in budgetary matters
- Cooperation with MS auditors

▶ European institutions themselves are trying to clear up the air

- register lobbyists
- publish Council voting results since 2006
- live EP plenary sessions
- live Council press conclusions

Discussion

- ▶ Is the EU more complicated than any other national system of government? Or is it just one of a kind?
- ▶ Is the EU more besieged by lobbyists and/or corrupt than states?
- ▶ Can you make sensitive deals in full lime-light (transparency)?
- ▶ What could the EU do to be more “open to the public”? Can it be, if it’s “so far up”?
