Semestral project

Collecting data 

Writing the report "The Health Care System Profile through the Lens of Human Resources" - One week prior the defense dates (20/5 or 29/05)

Team review of the assigned report of your colleague(s) team - Two days prior the defense days (25/05 or 03/05)

Project Defense - 27/05 or 05/06

The Report

1. comment on the results of the literature review
2. comment on the relevant topics being addressed in the selected country in the area of health workforce issues using the data collected in the quantitative phase
3. synthesise all this and produce a profile of the health system in the selected country from a human resources perspective.
4. include a comparison with other countries and propose concrete actions to strengthen the position of the health workforce in the selected country"

no less than 30 pages (one page is understood as having 1800 characters, a page including spaces)

The review of the assigned report

develop a team review of an assigned project of your colleague(s) team.

The aim of the review is to give constructive feedback on colleagues' work. In the review the colleagues project quality in terms of content (such as i.e., outcomes, arguments, and data) and formal requirements will be critically assessed. Present a detailed evaluation, propose concrete changes to improve the given rapport, and ask at least three questions.

the review shall span 2-3 pages

The defence

All members must actively participate in the defence.

The way in which you share your findings is up to you, i.e. you may or may not prepare a presentation for the defence.

The purpose of the defence is to share and discuss the main findings - so it is essential that there are at least two teams registered for each [term](#).

If no one registers for the first defence term by midnight tonight, all defences will take place in the second term, i.e. 05/06. We will inform you by email in the course of tomorrow.
