

## **TED Talks – Patricia Ryan – Don't insist on English!**

**Questions to think about, will be used in the on-line lesson for discussion:**

- 1) Why is losing languages so dangerous in the presenter's eyes? Do you agree?
- 2) Does the education – knowing English divide our society? Why or why not?
- 3) Why do people want their children to start learning English at their very young age? Do you agree or disagree? Would you do the same?
- 4) What do you think about the non-native couples speaking English to their children while living in their native country? Why?
