

① Because of the risk of coronavirus, the police told the crowd to disperse.

* The meeting will recur next week.

She drove too slowly because ~~she~~ she didn't want to jeopardise someone.

Making fun of ~~her~~ ^{him} really undermined his confidence.

He was transferred to the nearest hospital because the fall had caused him severe injuries.

② PRO

- an exposure within 3 feet → comparable to the exposure ~~inside~~ indoors

- even a little bit of ~~secondhand~~ smoke → health effects, cardiovascular disease, DNA damages ...

CON

- a difference between exposure to secondhand smoke indoors and outdoors

- smoke disperse quickly outside
- not enough time for smoke to cause damages (outside)

~~surveys~~
- surgeon general's office - mixing short-term effects of smoke and repeated exposure

- creating places with high level and concentration of smoke (~~exposed~~ ^{passive} entrances)

- can endanger possibility of passing anti-smoking law in the states where people still can smoke inside

- losing scientific credibility
lose

Berenice: I'll accept it this time, but please future assignment should be typed out

* recur:

often we use 'recur' to show sth that repeats itself!

dreams
illnesses
problems
tragedies
} recur

often with a negative implication, but not generally a show or play or meeting or event or celebration the is consciously put into effect, repeated, due to human effort.

- vocab well done
- points paraphrased from article clear, to the point.
Thanks, }

Excellent
